FILM FOR SENIORS

Charity Partner Proposal

Proactive Perimeter Control · October 2026

The ask

Proactive Perimeter Control (PPC) is looking for a registered charity to host Film for Seniors: hold donations, issue tax receipts, and direct funds to window film for low-income Niagara seniors. PPC contributes free labour and spare film, and handles all installations.

The program and the need

Film for Seniors installs solar or security film in one room or on one door for seniors 65+ who can't afford it, referred by trusted community organizations.

- **Heat and glare.** Older adults are more vulnerable to heat. A room that becomes too hot or bright in summer often goes unused, and film reduces solar heat and glare without blocking the view.
- **Security.** Glass patio and entry doors are common break-in points. Security film holds broken glass together and slows forced entry, which matters most to seniors living alone.

It supports aging safely at home, with a few hours of installation and no construction. PPC is also in discussion with its film manufacturer about donated or discounted film.

Roles and how funds flow

The charity holds the money and decides who is served; PPC does the work at cost.

Area	Charity	PPC
Donations	Receives funds and issues tax receipts	Promotes the program; never handles donated funds
Eligibility	Sets criteria and approves each senior	Provides assessments and quotes
Spending	Pays PPC for film at cost, per approved job	Invoices film at cost; labour donated
Installation	—	Installs to manufacturer standards
Reporting	Receives job and impact reports	Supplies photos, outcomes and quarterly totals

The exact structure should be set by the charity to meet its CRA obligations, including keeping direction and control over its funds.

Accountability and safeguards

- **No profit to PPC.** Film is billed at documented cost and labour is donated; invoices are open to the charity.
- **No sales activity.** PPC will not upsell or market to program recipients.
- **Independent referrals.** Seniors come through community organizations, not through PPC's customer list.
- **Consent.** Photos and stories are used only with the senior's written permission.
- **Insurance.** PPC carries liability insurance and will provide a certificate on request.
- **Reporting.** A quarterly report covering homes served, funds spent, film used and outcomes.

Why partner, and next steps

Film for Seniors gives the charity a concrete, visible program for seniors aging at home, with free skilled labour already committed and low overhead.

- ☐ Meet to review fit and the charity's requirements
- ☐ Agree on fund structure, eligibility and reporting
- ☐ Sign a simple partnership agreement
- ☐ Run a three-to-five-home pilot and report results
- ☐ Launch publicly with joint announcements
