FILM FOR SENIORS

Free Window Film for Seniors

A community program from Proactive Perimeter Control · Niagara Region

Professional solar or security window film for one room or one door, **at no cost to Niagara seniors who need it most.**

What we install

Solar film for a room that gets too hot or bright to use. Cuts heat and glare while keeping the view.

Security film for a glass patio or entry door. Holds broken glass together and slows a break-in.

A few hours to install. No construction, no mess.

Who qualifies

- Age 65 or older
- Lives in their own home or apartment in the Niagara Region
- Unable to afford film
- Referred by a partner organization

Jobs are limited and scheduled as film and sponsorship allow.

How to get referred

1. Contact a participating community organization, or ask your caregiver or support worker to reach out.
2. The organization sends a referral to PPC.
3. PPC calls to book a free home visit and confirm the right film.
4. We install, and you enjoy a cooler, brighter or safer room.

Help a senior near you

Local businesses and individuals can **Sponsor a Senior's Window** and pay for film for one home. Sponsors are thanked publicly with their permission.
